Message

I am glad that SBIOA International School, Mambakkam is planning to release a souvenir to mark the successful completion of the past academic year 20-21.

The school has successfully navigated one of the trying situations faced ever by the whole world. The initiative taken by the Headmistress, and staff members to deliver uninterrupted learning of the students is noteworthy.

What makes a child gifted and talented may not always be good grades in school, but a different way of looking at the world and learning. Education goes beyond shaping the students as individuals and enhancing their perspectives—it helps them better handle problematic situations.

I am sure the students of SBIOA International School have been shaped appropriately by their mentors to face any kind of hardships that life may throw.

Let's all pray and hope, normalcy is restored soon, and we meet in school.

Stay Safe!

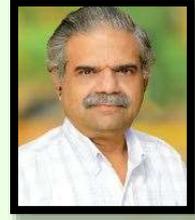

All the best!

Mr. P. Nallaperumal Pillai

President

SBIOA Educational Trust

Message

I congratulate the Correspondent, Headmistress, teachers, parents and the students for their excellent planning, execution and cooperation during this pandemic.

The year had been unprecedented. Due to the country wide lockdown declared by the Government, air of uncertainty lingered around us.

It was evident that the time had come to go with online teaching methods. I am happy that the teachers of SBIOA International School have been able to quickly adapt to technology, thus making education accessible to our students, every corner of the country or abroad, wherever they were held up.

Education to be continued even during this pandemic is important because it broadens our knowledge, and this knowledge then opens our minds to new perspectives, ideas, beliefs, and cultures. It breeds confidence. Confidence breeds hope. Hope breeds peace.

I wish our entire community of School a safe and healthy life.

Let us overcome the situation with confidence.

Dr. R. Balaji
Secretary & Correspondent
SBIOA Educational Trust

Message

The children of today are the future of tomorrow. And in order to tackle the environmental, social, and economic issues that our societies will face in the future, we need educated, skilled leaders who are dedicated to pursuing creative solutions. There was a time when usage of social media by young children was criticised by many. But now, regular classes are being compensated by online classes and constant assessments.

This is a creative solution to an unexpected problem. Exploiting the available resources to our advantage is a skill. I expect the students of SBIOA International School to be skilled leaders providing creative solutions. Parents should also guide their children to use social media efficiently and monitor their day-to-day usage.

I appreciate Team SBIOA IS for taking efforts in bringing out this souvenir in spite of odds.

Mrs. S. Santhi
Associate Secretary
SBIOA Educational Trust

Message

I am happy to note that SBIOA International School continues to demonstrate its commitment to its students from the year of its inception.

The consistent cultural and sports achievements by the students is commendable. The efforts taken by the teachers to make the students participate in online seminars and competitions and event celebrations to impart holistic education shows the commitment of the teachers and students.

Education is more than just learning how to read and write. Education helps us grow personally, professionally, and socially. It also helps us become better versions of ourselves. And it broadens our perspectives to help us learn about different societies and cultures.

Students should use the given opportunities and come forward to participate in the training programmes, clubs and other extra-curricular activities so as to enhance your innate talents.

My best wishes to all of you!

Mr. M. Manimaran
Treasurer
SBIOA Educational Trust

Message

It is indeed a privilege that a Souvenir is being released every year which includes the activities of the school, students' achievements and their literally and artistic contributions.

Preparation for the souvenir sharpens and strengthens the skills of the students. To know that our students have taken efforts to coordinate, despite the distance is heart-warming. It shows their interests and dedication with which they are being mentored. Enriching our brains with new and valuable information improves our ability to think, analyze, and process the world around us. Being presented with different perspectives helps us quickly adapt to new and unfamiliar environments. It also teaches us to stay calm when faced with problems, and it gives us techniques to deal with challenges in a logical way.

I am mindful of the fact that the global health crisis had hit us hard physically and mentally. Nevertheless, it could have been harder but for the prudent and strategic teaching and support plan by our teachers.

Let us build our self-confidence and learn more about our strengths and reach greater heights.

I wish our Headmistress, Team of teachers, Parents, and Students good luck!

Mr. M. Muralidharan
Correspondent, SBIOA IS

Message

“Strength does not come from physical capacity. It comes from an indomitable will” – Mahatma Gandhi.

As educators, students and parents, we’re experiencing huge change and uncertainty at the moment. However, the importance of education remains consistent.

The past academic year saw an unimaginable scenario, but we also realised our primary responsibility is to keep the teaching -learning process going, and online learning and teaching could be the greatest opportunity because of this crisis. This realisation made us shift from in-person teaching to online learning. We were able to help teachers rapidly scale-up and start distance education. Every effort was taken to make the online learning resourceful, interesting, exciting, and useful for the students.

A curated collection of useful resources including self- made video tutorials, Power point presentations, reference resource materials, worksheets were posted in online forums. Online strategy sessions like support classes and monitoring sessions bridged the learning gap for academically challenged students and efforts were successful. We encouraged our students to participate in a wide range of activities virtually. From student leadership to engaging clubs and academic teams, our students were challenged intellectually. And parents played a big part, too. Parents were of immense support and their cooperation is much appreciated. They were the pillars of support for both teachers and students.

We faced a monumental challenge- still do, and we must work together like never before. It is not only the right thing to do, but also the smart thing to do as students are young and energetic to learn through these online resources. The future of virtual learning seems to be vibrant as number of students and faculty are showing interest in these teaching and learning methods.

We do not know what the future holds or how long schools will stay closed. But we can try to shape each day to be positive, creative, exciting, and rewarding. As William Shakespeare reminds us in this quote – our potential is infinite! By staying positive and refusing to give up, despite the challenges that come our way, our inner strength will endure.

My sincere thanks to our President Shri. Nallaperumal Pillai, Secretary & Correspondent Dr. R. Balaji, Associate Secretary Shrimathi S. Santhi, Treasurer Shri S. Manimaran , Correspondent Shri M. Muralidharan and Management Committed members for their support and guidance.

The School souvenir is a compilation of memorable events of the academic year 20-21. My sincere thanks to the Editorial Board for etching these in the annals of SBIOA International.

Mrs.Vijayalakshmi Nageswaran
Headmistress, SBIOA IS

SBIOA INTERNATIONAL SCHOOL, SONALUR

ANNUAL REPORT - 2020 – 2021

“Aspiration is the very existence of the school and that thrives us to the ambition of marching forward till excellences are being achieved.”

With the blessing of almighty and the continuous support of the stalwarts of the SBIOA Educational Trust, we have successfully completed an academic year. Today, I am extremely honoured in presenting to you the annual report for the year 2020-2021.

SBIOA International School started its journey in the year 2017-2018 with 82 students and now has an upward enrollment of reaching nearby 1021 students. This outstanding result speaks about the untiring efforts put by our committed staff.

SBIOA International School ardently believes in constructive education with love, concern and commitment. Hence, we have always been committed to create an environment in the school which helps the young minds to blossom and provide a platform for individual thinking and holistic development.

- **World Wildlife Day** was celebrated on 03/03/21 to raise awareness and to celebrate the flora and fauna of the world.
- **World Sparrow Day** was celebrated on 20/03/21 to raise awareness and protect the birds which are on the verge of extinction. The Ppt presentation shared, taught the students to live in harmony with the little sparrows.

GRATITUDE

Gratitude makes sense of our past, brings peace for today and creates a vision for tomorrow.”

I express my sincere gratitude to respected President, Mr. P. Nallaperumal Pillai, SBIOA Educational Trust, for his expert guidance & ideas. I express my gratitude to our beloved Secretary & Correspondent of SBIOA Educational Trust, Dr. R. Balaji, a learned man with a noble heart whose generous appreciation make us strive harder. I express my heartfelt gratitude to Mrs. S. Santhi, Associate Secretary, Mr. S. Manimaran, Treasurer, and the Management Committee members of SBIOA Educational Trust for their abundant support and encouragement. I extend a deep credit to our beloved correspondent Mr. M. Muralidharan who had been a great mentor in all our endeavours. My heartfelt Thanks to Mr.V.V. Anand, Administrator for his guidance.

With deep reverence and gratitude, I am thankful to my multifaceted academic team for their contributions in enhancing the standard and quality of education. I also thank my non-teaching staff for their effortless co-operation in all our success. It is my great pleasure to show a word of gratitude to our parents who have constantly extended their love and co-operation in all our endeavours.

I thank God Almighty for his choicest blessing showered upon our school.

Thank you One and all!

Shining Stars of 2020 — 2021

#proboticworks #funcity
I developed an app for a challenge!!!

Meet the Community

Meet the Community programme which is regularly organised by SBIOA International School, Mambakkam. The main objective is to give an opportunity to the children to meet people from different walks of life. To teach the children to appreciate and respect the contributions made by people in their day to day life. Mr. Manikandan, a former IAS professional was invited to interact with the children for the purpose. In his interaction, Mr. Manikandan spoke in detail the reasons why he took up the job after his schooling. He motivated

The students to make use the opportunity to value themselves as well. He advised the child on the ways to conduct themselves during the trip to school in vehicles. He stressed upon traffic signals and it advised the child to follow to the road rules.

World Environment Day

World Environment Day was celebrated internationally in SBIOA International School, Mambakkam on 22.06.18. Mr. V. Palani, superintendent of Sub-division, Madurantakam presided the programme. Children attired in greenery spoke about the importance of protecting our Earth. They also oriented placards about the harmful effects of plastics. The chief guest presided the initiative of the school to enlighten the

children about preserving the environment. Saplings were planted in around the school campus to mark the occasion. Various competitions like painting, colouring and collage were also conducted.

Tree Planting At Mambakkam Lake

The Secretary & Correspondent of the SBIOA Educational Trust, Dr. Thomas Franco Rajendra Dev, as part of his save environment initiative planted saplings along the mud bund of Mambakkam Lake on the day of his retirement. He motivated the children

to plant trees in order to protect the natural water bodies. He explained how trees help in retaining rain water, recharge the ground water and increase soil fertility. The students of std IV- VI participated in the event. The event became a memorable one, as it was the last day of his office.

Kalvi Valarchi Naal Celebration

Perunthalaivar Kamarajar's birth anniversary was celebrated at SBIOA International School, Mambakkam as Kalvi Valarchi Naal on 13th July 2018. Dr. Magesh, Consultant & Counselling Psychologist was the Chief Guest. In her address to the children, she stressed

to be patient, tolerant and responsible. She enthused the children to be humble and patient by narrating few incidents from the life of 'Karmaveer Kamarajar'. Prizes were distributed to the winners of the interschool competitions that were conducted a week earlier as part of the celebration.

International Yoga Day Celebrated

Inauguration of a new SBIOA School

The inauguration of a new SBIOA International School was held on 13th July 2018. The event was presided by Dr. Magesh, Consultant & Counselling Psychologist. She addressed the children and stressed to be patient, tolerant and responsible. She enthused the children to be humble and patient by narrating few incidents from the life of 'Karmaveer Kamarajar'. Prizes were distributed to the winners of the interschool competitions that were conducted a week earlier as part of the celebration.

Investiture ceremony held at SBIOA

The Investiture Ceremony of SBIOA International School was held on July 5. The headmistress, Vijayalakshmi Nageswaram, invested the leaders of the school with the badges. Leaders of classes were also inducted. The newly elected leaders were encouraged to be role models for their school mates. S. Vidya, Dept. of Science, delivered a speech on leadership qualities.

WORLD PHOTOGRAPHY DAY

World Photography Day was celebrated at SBIOA International School. The children displayed their photography projects. The event was presided by the headmistress, Vijayalakshmi Nageswaram.

RS BROUGHT

SBIOA INTERNATIONAL SCHOOL, MAMBAKKAM
CANCER KILLS; KILL CANCER - AWARENESS RALLY

Students of SBIOA International School participated in a rally on 06.02.19, World Cancer Day. The rally was flagged off by Mrs. Vijayalakshmi Nageswaran, Headmistress. The rally aimed at creating awareness in the minds of general public to undergo regular screening to detect and treat cancer. Children performed a skit to highlight the changing life styles and eating habits of the youngsters that lead to life threatening diseases like cancer earlier in the day in a special programme organized in the school

With the aim of combating the deadly disease denque, the staff and students of SBIOA International School, Mambakkam, organized a special Denque Awareness rally recently. The rally was flagged off by the Headmistress, Vijayalakshmi Nageswaran. Students of class VI carried placards highlighting the causes, consequences and prevention of denque. Slogan writing and poster making competitions were conducted as well.

Swachh Hindustan at SBIOA

Students of Class 6 from SBIOA International School, Sionnar, took part in a cleanliness drive organised by the school. Students went to a temple at Sionnar and cleaned the premises under the aegis of Mrs. Vijayalakshmi Nageswaran, Headmistress, recently. They also cleaned the area surrounding the temple and distributed pamphlets to the public and explained about the 'Clean My India' project and how it could improve a country if implemented properly.

'We don't talk; we act', was the pledge taken by the students of SBIOA International School, Mambakkam when the cleanliness drive was initiated. Standing true to their commitment, the team comprising of students from classes VI and VII visited a temple tank near Kolathur village, Mambakkam and cleaned its premises.

As the men who have served and are currently serving the country deserve our respect and appreciation, in an attempt to bring the children's attention to the real heroes of our nation, a Prabhakaran, Assistant Commandant of Border Security Force and his company were invited during the Independence Day celebrations at SBIOA International School, Mambakkam. The students were excited and patriotic fervor filled the campus, when the company presented themselves at the venue. They paraded in their uniforms set an upbeat mood for the celebration. Children were urged to show respect, salute their bravery, express support and pray for the well being of our soldiers who protect and guard us.

To make children realize that we are a part of nature and not apart from nature, a Weep Wele ICE - I Care for Earth - 2019 was organized by SBIOA International School, Mambakkam. Students from classes I to class VI displayed various models and projects that brought out various aspects of the environment like weather, habitat conservation, wildlife, human health etc. The opportunity given was best utilized by students to showcase their understanding and also share their knowledge with the general public and parents to protect our Earth for a safe, healthy and sustainable life.

The Investiture Ceremony of SBIOA International School, Mambakkam, was held with great dignity in a special ceremony organized recently. The event was presided over by the Correspondent, M. Muralidharan. The elected leaders were conferred with badges. The Ceremony was held with sincerity and lots of enthusiasm. Correspondent, M. Muralidharan congratulated them and advised them to uphold the values of the School and discharge their duties towards themselves and their School. The Sports secretary took the pledge on behalf of the students' council, to deliver excellence as student leaders, be a role model to their peers and make the school reach greater heights.

LIFE IS A RAILWAY TRAIN

Life is Just a Railway Train,

Which is more terrifying than Rain.

Everything in it increases Day-by-Day,

While many people enter on our way.

They encourage us by doing good deeds,

And later sprouts a hope of new seeds.

Later, they will have to go,

While, we still might have foes.

While the dark clouds haven't yet disappeared,

A new hope emerges when the sun appeared.

All the hope is now in your hand,

But this repeats like a spinning fan.

When you think about to ascend,

You would have reached the track's dead end.

S.Manibhushan

VII B

INSPIRED BY THE POEM 'THE SHED' [What's Next]

At last, with my courage, I went inside the shed.

I pushed the scary door and stood on the rotted floor-board,
when I went a little in- it became darker and darker.

Suddenly the door shut so fast, I rushed to get out,
but the door didn't open.

I was frightened and sat down in fear.

I suddenly saw something moving,

I wasn't sure what it was but, was sure something was there!

With my whole strength and courage,

I went forward and caught something... it was my brother...

I recognized him with his curly and oily hair.

I always suspected that there must be some secret with him,

As he always compelled me not to go inside the shed.

I somewhat managed to get the truth out,

And yes! His zeroes in tests were safely hidden there.

I switched on the light but couldn't open the door,

Through the remote control he had made, he had locked the door.

Surely, he is a great inventor, with many inventions to his credit.

Promptly, I apprised my mom, she was angry but happy for his invention

PHEW! she gave him a knock and a nice pat.

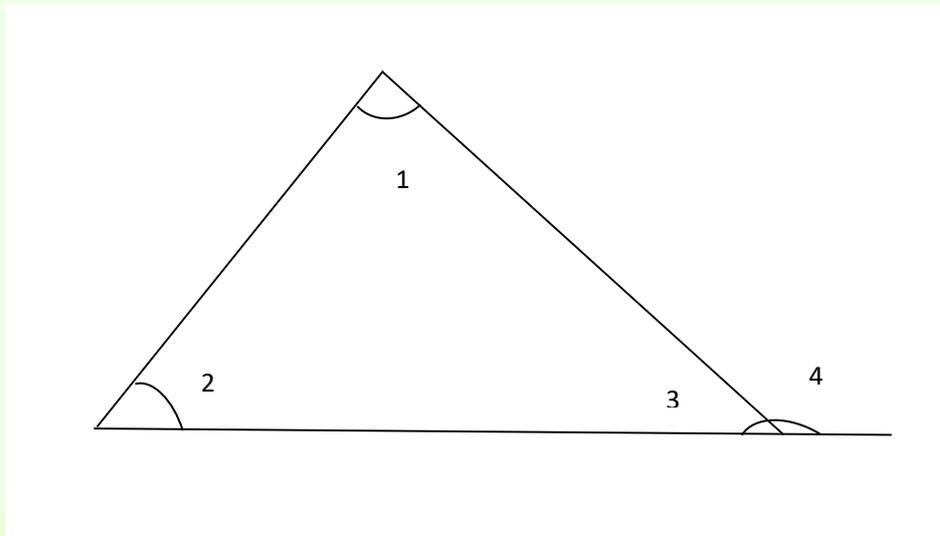

That was the best day in my life!

Malathi Chidambaram

VII B

EXTERIOR ANGLE DERIVATION

To Prove: An exterior angle of a triangle is equal to sum of two opposite interior angles.

Since, we already know that sum of angles in a linear pair is 180° and sum of angles in a triangle is 180° , we can write that

$$\angle 1 + \angle 2 + \angle 3 = \angle 4 + \angle 3$$

$$= 180^\circ = 180^\circ$$

Now subtract $\angle 3$ on both the sides

$$= \angle 1 + \angle 2 + \angle 3 - \angle 3 = \angle 4 + \angle 3 - \angle 3$$

$$= \angle 1 + \angle 2 = \angle 4$$

\therefore We can prove that an Exterior Angle in a triangle is equal to sum of two opposite Interior Angles.

RAIN

I am the brain and

I am going to tell you about rain

It goes up by evaporation,
and comes down by precipitation,

In the middle comes condensation.

It makes fluffy clouds,
and muddy puddles.

It comes down by rain, snow, or hail,
but it will never fail.

S.Sudarshan – 6 A

CLOCK IT RIGHT – WITH BLOCK CHAIN

Satoshi is a 6th standard student studying in SBIOA. Both his parents were working and hence going to shops for their daily needs became a challenge. Satoshi's distant uncle name is Krishna, who is a renowned businessman in various areas. Recently Krishna started his new ecommerce venture called dailymilk.com. Krishna gets milk from multiple vendors and uses cold storage to store and then deliver it daily to the residents based on their orders through his APP. As part of his usual routine, one day Krishna visits one of his storage point nearby to Satoshi house. From his storage place, Krishna uncle goes to Satoshi's house.

Krishna: - Hi Satoshi how are you doing dear?

Satoshi: - Hey Krishna Uncle!! What a surprise... Pl come. It has been so long you came home. Why are you not visiting our home often?

Krishna: - Nothing like that kiddo! New business which I ventured in is keeping me very busy.

Satoshi: - Is it so? What business is that uncle?

Krishna: - I started dairy products business kiddo.

Satoshi: wow! That's great but there were so many in and around shops selling dairy products. Why did you start the same business uncle?

Krishna: - Not like that Sato! This is an e-commerce venture specialized for dairy products wherein I procure the milk from multiple farmers and store it in cold storage and perform the delivery on the same day.

Satoshi: - Interesting!! What is the App's name uncle? I will ask mom to immediately install and use it. Since both my parents are working, they are struggling to go to shop every day and purchase milk. This would help them big time.

Krishna: - Its dailymilk.com.

Satoshi: - Nice name uncle. How is the new business going then?

Krishna: - Not that great. Though I do good amount of

business, but I get loads of complaints from multiple regions about the quality of the milk like low fat content, adulterated milk etc., even now I came to visit nearby cold

storage as I had lot of complaints coming up from in and around this area. So visited the respective suppliers and trying to find out the issue. But still, I couldn't nail down to the exact supplier who is creating the issue, as I have so many small-scale suppliers.

Satoshi: - Definitely, this is tough situation to be in uncle, but in this technology world this can be solved very easily.

Krishna: - Is it! How come? Can you please explain?

Satoshi:- Uncle , you haven't heard about blockchain. I have seen multiple videos on that while trying to understand the concept behind the same. Its mentioned that it will solve so many real-world problems in various area like Banks, supply chain, insurance etc., please explore the same.

Krishna: - Shocked (on positive note).. Is that so, how come that's possible?

Satoshi: - I heard that it has the ability to back trace till the initial source.

Krishna: - if so, then it's a great breakthrough in my business and my problem is solved. Let me call my IT service provider who helped me in developing my e-comm app regarding this.

Satoshi:- sure uncle! If it works, definitely it will be great and all the best.

Krishna: Thanks kiddo! Catch you later. Its time up. Keep learning advanced technologies like this always. Bye!

Satoshi :- Sure uncle will do, thanks and Bye uncle. Take care. Please come home often.

Krishna:- Sure Dear! Bye.

That was an amazing breakthrough in Krishna's life. He used Block Chain

mechanism which paved him the path of Traceability. He soon started using the block chain techniques and found out the exact vendor who was doing the adulteration which caused all the issues.

Soon he detached the vendor from his business and started tracing every product's quality thus earning more satisfied and happy customers. Thus, he started calling our young genius as "Techie Satoshi" and gave him lots of gifts as token of love and gratitude.

"BLOCK CHAIN IS GOING TO CHANGE EVERYTHING MORE THAN INTERNET HAS"

**L.V. SRETHIKA

A short story on "Honesty"

Think and Act

It was a normal day at school until 'Math' class. It was the day when the teacher announced our result for the test we had written last week. My heart was racing. I hadn't prepared for the test at all. I knew it was not gonna be good. If I didn't get at least a 'B' I would not get my allowance for the week. I needed the money for the movie, my friends and I had planned to go to, over the weekend. At last, I got my answer sheet, and it was not what I expected. I got a 'D'. I told my friends about this and they were sad. I would not be able to go to the movie unless.... That's it! The devil in me made a master plan. I gathered my friends and told them what they had to do. When the lunch bell rang, all the teachers went to the lunchroom and the

principal went to the nearby restaurant (the food in the cafeteria is horrible). We sneaked into the staff room and took Ms. Judy Dellfire, our Math teacher's mark register. We got it and went as far away as possible. We did see some hack on how to change the grade on "YouTube". We tried and it worked. I was relieved. Finally, I could go home without being scared. In all the excitement we forgot to keep the register back in its place and went home. Ms. Judy noticed the missing register and reported it to the principal. We did not expect what was coming next. Looks like the principal had CCTV installed in the school and in no time, we were caught. Ms. Judy changed my grade, gave me detention and worse, spoke with my parents. When we reached home my parents yelled at me and cut my allowance for 3 weeks and made me learn math the whole week. I broke their trust and disappointed them. That's when I realized that all I did wrong, was for the money. I didn't think twice about my actions and made wrong decisions. Since then, I promised myself that I would think twice about my actions and make the right decisions.

Moral: "What is got stealthily will be lost eventually."

G. Joahanna 7A

TRICK #1

- + Think of any number from 1 to 10
- + Multiply it by 2 [double it]
- + Now, multiply it by 5
- + Now subtract it by 6
- + Now focus on th last digit i.e. if it's '12' focus on '2'

Hmm.. I guess your number is

“4”

Am I correct? ☺

TRICK #2

- + Pick a number from 1 to 9
- + Multiply it by 2
- + Add 10 to the total
- + Now divide by 2
- + From this subtract the number you picked

and your answer is

‘5’

THE ALMOST PERFECT COUNTRY

SINGAPORE

There might be racism, poverty, pollution & traffic. In the world there are so many countries with problems, it seems like every country and every person is filled with problems. And Singapore has managed to find solutions!!

RACISM:

In Singapore many races live

I.e. the Indians, the Malay's, Chinese & Eurasians, and because people of different races might disagree and hate each other, Singapore has forced all of them to live together in buildings!! And so instead of enemies, they are neighbours!!

TRAFFIC:

Many countries suffer from traffic. In Singapore they had traffic until they fixed it. In Singapore they limited the number of cars on the road, so that the no. of cars on the entire country cannot increase and many people use public transport instead of cars and bikes.

POLLUTION:

Landfills look and smell disgusting in many, many countries, but in Singapore they DO NOT. Because they take their trash, burn it and filter out the smoke, collect the ashes and dump them and made a man-made island!! Another problem is fresh water, so much of it is WASTED, but not in Singapore. It is one of the countries which has scarcity of water and so these guys built an entire system that takes their urine water and turns it into clean water that humans can drink. And there is no

hazard in it as it is tested 150,000 times before it is given to the public. So, realize that water should never, ever be wasted again.

AND THEY SOLVED IT ALL IN 53 YEARS SINCE THEY GOT INDEPENDENCE.

But still Singapore has a lot of problems with no solutions, they too suffer from inequality, high prices, tight security. Even many elderly people can't afford to retire, many imported foreign workers are very low paid.

SINGAPORE HAS MANY PROBLEMS BUT UNLIKE MANY THEY ARE TRYING TO FIX THEM. IF THEY CAN SOLVE SO MANY PROBLEMS IN 53 YEARS THEN WHY CAN'T WE?!!!

“IF THEY CAN THEN WE CAN”

ARTICLE BY:

C.Suryamoorthy 7- A

My 2020 Story

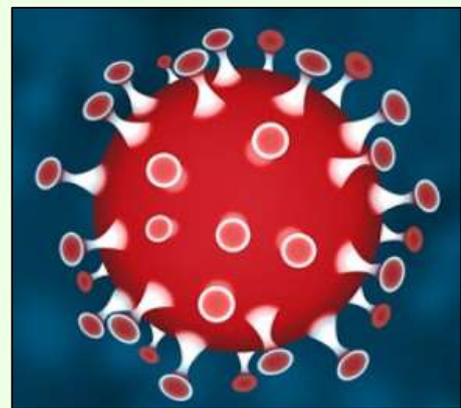

On March 21st, we started with a good morning, but with the bad news ‘A VIRUS CALLED COVID -19 IS SPREADING ‘.

All our schools and our parent’s offices were closed. My family and I were happy, we played games and watched movies. But when days passed, we were bored in playing games and we had watched all the movies! After a few days of dullness, my parents decided to go to our native. My brother and I were so happy that we couldn’t sleep!—The next day my mom and I started packing all our stuff and started our journey that night in our car. After a night of travelling, we reached our grandmother’s place and found it to be different.

We got down from the car and found out that we were in a HOSPITAL! We asked our parents what was going on and we found out that we had to take a COVID test!!

The test was disgusting but we got a result of negative and we started our way to our grandmother’s house. We had lots of fun. After a few days we were introduced to online classes. They were interesting but also difficult. We started our studies after 2 months and it went well. Everything was going good, but suddenly my dad was having cough and body pain. We were sure that it was not that deadly virus, but my dad went for a COVID TEST. We were shocked to hear this news as my dad was positive for COVID -19. He took his treatment for four weeks and he was good as new after having lots of medicines. But in

the meantime, we were going crazy, steaming and drinking health drinks. Many people were finding it hard to make eds meet because of lack of business, but at the same time few were happy as they could be with their family in lock down. We students missed a lot of our studies and learning but our teachers helped us in all ways to not waste a year and make every one of us the best student.

STAY HOME STAY SAFE!!!

A book

10. Which country is the most slippery?

Greece

The Old Shed

There was a shed, near the flower bed,
In there, was a spooky ghost, I always thought it as a joke?
But I never tried to step inside, when I was a cowardly child.
As I heard some strange noises and spine- chilling voices.
It's almost fall, and now I'm tall,
So today I'm gonna see, the abandoned shed after tea.
Now I'm one step closer to go inside and find if my brother lied.
But I can't believe in what I saw! There was an old trunk before me.
With so much thought I opened it and there it was my brother's prank kit,
With all the junk, there was a box, but it was full of stinking socks.
I thought there wasn't much to explore, so I walked towards the door.
And then I found a golden key, right then an angry bee stung me.
As I cried in pain and fell by the door, I saw a box beneath the rotten floor.
I pulled it out recklessly and opened it with the golden key.
The choice I made to check out the shed, with fear about the ghost of the dead,
I never regret to this day and thank my brother in every way,
For in the shed, I found something precious.
A long-lost treasure, a diamond necklace.

Summer

The warmth on itchy skin,
The heat on my face,
Humidity in the air,
The sweat after a race.

Longer days with fun and joy,
Is what summer brings.
The sky in a brilliant shade of blue,
And so many more things.

The cold tingling feeling of the pool,
As our skin gives a sign of relief,
Our minds thinking of the lazy days,
When nobody is in grief.

The sun shines merrily about the horizon,
Sharing its heat and light,
Smile on every body's face,
As our hearts are filled with delight.

Pawan Kumar Seervi 7 A

TONGUE TWISTERS

- Fred fed Ted bread, and Ted fed Fred Bread.
- I silt the sheet, the sheet I silt, and on the slitted sheet I sit.
- How can a calm cram in a clean cram can?
- If you, must cross a course cross cow across a crowded cow crossing ,cross the cross coarse cow across the crowded cow crossing carefully.
- She sells seashells by the seashore.
- Six sick hicks nick six slick bricks with picks and sticks.

Gaayathri Priyhatharshine – 7 B

SCOOBY! MY PET

My pet's name is Scooby
He is a mighty pet to be.
He barks at stranger
When he senses danger.
He is as smart as a fox
But can't wait to open a parcel box.
He trips us down
By coming behind with a frown.
He has a clever mind
But is one of the dog's kind.

SIMON JUDE NIMALAN. E – 8 A

"Go not to the temple" by Rabindranath Tagore (Nobel Prize in Literature, 1913) - what a powerful message for the World that is so divided today.

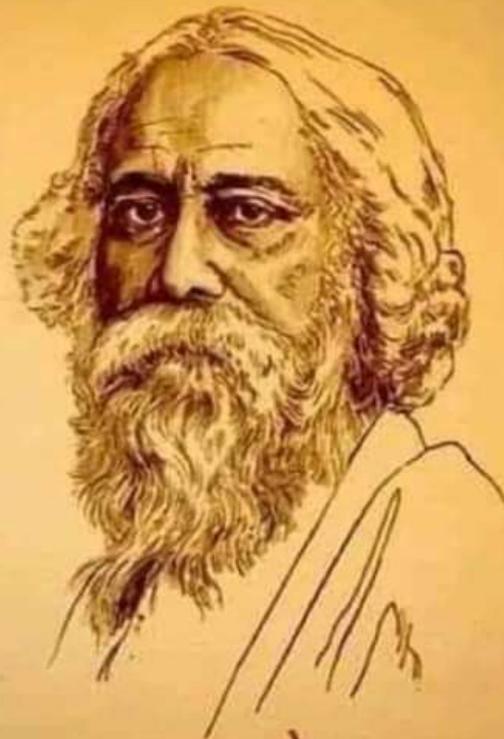

*Go not to the temple to put flowers
upon the feet of God,
First fill your own house with the
Fragrance of love and kindness.*

*Go not to the temple to light candles
before the altar of God,
First remove the darkness of sin,
pride and ego, from your heart...*

*Go not to the temple to bow down
your head in prayer,
First learn to bow in humility before
your fellowmen.
And apologize to those you have
wronged.*

*Go not to the temple to pray on
bended knees,
First bend down to lift someone who
is down-trodden.
And strengthen the young ones. Not
crush them.*

*Go not to the temple to ask for
forgiveness for your sins,
First forgive from your heart those
who have hurt you!*

— गुरुदेव —

RABINDRANATH TAGORE

Make your own destiny

Zara Mcbride was a gymnast and she was doing her 8th grade in Gems Our Own School in Corsica.

She was the role model for every student in her school. One day she suddenly went blind and her dream of becoming an international gymnast professional was shattered. However, she refused to give up and was very hopeful in finding her way out to fulfill her dream.

She started looking at the possibilities of practicing gymnastic using unique methods that were designed exclusively for blind people. That is when she heard about Ultra Sound technology and how it can help blind people to overcome their disability. Without wasting time, she enrolled herself for the classes and started mastering it soon due to her incredible quest for success at the highest level and passion for gymnastics.

She was all set to participate in the Olympics for the physically challenged, which was scheduled to happen in 2 years' time. As things started to fall in place for Zara, her confidence level increased slowly but steadily. To make things more beautiful, Zara got a new friend (Maya) in her school who was a muted child. Like Zara, she too was very passionate about sports. They both started enjoying their company and kept motivating each other to practice hard and improve their performances.

Six months later, when Zara & Maya were chatting casually in their garden, the topic on how they suddenly got this disability came up. Both were shocked to know that there was something common, which resulted in their disability. They figured out the root cause of the issue could be the excessive usage of electronic gadgets such as Smart Phones, IPad, and Tablets...

During the lock down, both friends were unable to train Outdoor & Indoor and hence started spending more time online in entertainment and by playing games. As the days passed by, the amount of time they spent on gadgets had increased significantly and it had disturbed their daily routine as well.

One stage it became everything for them and the only reason they wake up every morning is to engage themselves with online entertainment and games. It was in this situation they started having those health issues frequent headaches, dizziness, blurred vision, throat infections... all sorts of problem in their head.

By the time they decided to undergo treatment, it was too late and the damage was already caused.

After discussing about this, tears started rolling from both friends' eyes and they admitted how this behavior ruined their future.

Nevertheless, they both are ready to put that costly mistake behind them and ready to accept the new challenge in front of them. Chase their dream and achieve big.

Both friends decided to spread their story to as many people as possible to create an awareness among the youth about how bad life- style can impact one's life and at the same time when you follow your dreams and work hard with passion then nothing is impossible in life.

Pranavicka Ravi – 6 B

A Happy Child

My house is red a little house,
A Happy Child I am
I laugh and play the whole day long,
I hardly ever cry.

I have a tree, a green, green tree,
To shade me from the sun
And under it, I often sit,
When all my play is done.

B. Hrithikk – 6 A

My World of Sports

It was a beautiful early Saturday,
While the chicks clucked and plants grew,
As bright as the powerful scorching Sun,
But the sky was still blue.
I was wondering myself alone,
If I had a bike or few games,
I would enjoy that with my friends,
Oh! I should have called out their names.
A football or the cricket,
I have so much to say,
I like indoor games - UNO and Chess
I can't wait to play.
They inspire me so much in my dreams,
Not like a pet, not like a cat. Winning is the stage for celebration
But a world full of sports played by athletes, Losing is a part of experience.
Few with hockey sticks and rest with bats.

S. SriRaghav, Std. 5

The Wise Man

There was a village where people used to visit a wise man to help them with their problems. They complained about the same problem every day. One day the wise man shared a joke with them and all started laughing. After sometime he shared the same joke, and a few of them smiled.

After a couple of minutes, he again shared the same joke and no one laughed. After patiently keeping quiet for some time, the wise man said, “When you cannot laugh over the same joke again and again, so why do you complain about the same problem?”

Moral of the Story: “You cannot solve your problem by worrying or being anxious. It will only waste your valuable time and energy”.

Hrishika Das Class: 5B

இயற்கையை காப்பாற்றுவோம்

இயற்கையுடன் நமது உறவு முற்காலத்தில் தாய் சேய் உறவு போல அற்புதமாக இருந்தது. கருவறை முதல் கல்லறை வரை வாழ்வியல் முறைகள் அனைத்தும் இயற்கையை சார்ந்தே அமைந்து இருந்தது. நிலம், நீர், காற்று, என அனைத்தையும் கடுவுளாக வைத்து வழிபட்ட நமது முன்னோர்கள் ஆலமரம், அரசமரம், வேப்பமரம், வில்வம் என கோவிலுக்கு ஒரு மரத்தை வைத்து ஸ்தல விருட்சமாக வணங்கி விழா எடுத்தனர். கதைகளும் காவியங்களும் அதை ஒட்டியே எழுதப்பட்டன. மரங்களே மழையின் விதைகள் என்பதை உணர்ந்த நமது முன்னோர்கள் காடுகளை காப்பாற்றி தலைமுறையை வாழ்வித்தனர். சுகாதாரமான மேம்பட்ட சூழலில் இயற்கையுடன்

ஆனால் நாகரீக வளர்ச்சியிலும் பொருளாதார தேவையின் பொருட்டும் மனிதன் கிராமத்தை விட்டு இடம் பெயர்ந்து நகர பகுதிக்கு வந்தான். கால மாற்றத்திலும் குடும்ப சூழலிலும் இயக்கையுடனான அவனது உறவில் விரிசல் ஏற்பட்டது. மீன் பிடித்து சாப்பிட குளமும், எரியும், கண்மாயும் நீரில்லாமல், மணல் இல்லாமலும் சூழல் மாறுபாட்டில் சுடுகாடுகளாக மாறிவிட்டன. கடைமடை வாய்க்கால் இருந்த சுவடே தெரியாமல் மறைந்து விட்டது. உலக விஞ்ஞானிகளும், சுற்றுசூழல் ஆர்வலர்களும் பலமுறை எச்சரித்த பின்பு தற்போது, அரசும் சூழல் காக்கும் திட்டங்களை செயல்படுத்த தொடங்கியுள்ளது. பிளாஸ்டிக் பைகள் தடையும், தூய்மை இந்தியா திட்டமும் அதற்கு ஒரு முன்னோட்டமாக எடுத்து கொள்ளலாம்

ஒரு தனி நபரின் பொருளாதார வளர்ச்சிக்காக இயற்கையை சிதைத்தல் தவிர்க்கப்பட வேண்டும். எந்திர மயமாதலும், புகையும் இரைச்சலும் சிட்டுக்குருவிகள், பூச்சிகள் மட்டுமல்லாமல் நம்மளையும் பாதித்து வருகின்றன. மனித தேவைகளை

தாண்டி இப்பொழுது விளம்பர திருப்தியே மாசு பிடித்த உலகத்தை உருவாக்கி மாய சமூகத்தை உருவாகியுள்ளது. நாம் செயற்கை மீது பேராசை பட்டு உயிர் மண்டலத்தை சிதைத்து விட்டோம். ஏறக்குறைய நாம் உலக இயற்கையை முழுவதுமாகவே ஆக்கிரமித்து பயன் படுத்தி விட்டோம்

காடுகள் மழையை தருவதுடன் மண் அரிப்பினைத்தடுக்கிறது. பூமியின் தட்ப வெப்பநிலையையும் பாதுகாத்து மழை தரும் கடவுளாக உள்ளது. மனிதனை தாக்கும் நோக்கான மருந்துகளில் 75 சதவீதம் காடுகளிலிருந்தே கிடைக்குறது. பெருகி வரும் மக்கள் தொகையும், மனிதனின் கலாச்சார மாற்றமும் தான் இயற்கையின் இடர்பாடுகளை காரணம். உணவு முறை மாற்றத்தால் சத்தான நமது அரிசி, சோளம், கம்பு, கேழ்விரகு, தினை குறைந்து உடலுக்கு தீங்கு விளைவிக்கும் பீடசா, பரோட்டா, என மைதாவில் தயாரிக்கப்படும் உணவு முறைகள் அதிகரித்து விட்டன. சில இடங்களில் இயற்கை அங்காடிகள் மூலம் இயற்கை முறையில் விளைவிக்கப்பட்ட காய்கறிகள், உணவுப்பொருட்கள் விற்பனை தொடங்கியுள்ளது. நல்ல மாற்றமாகும்.

முடிவுரை:

இயற்கையை பாதுகாப்பதற்கு தொழில் ரீதியான உற்பத்தியை சகுறைக்க வேண்டிய அவசியமில்லை, ஆனால் மாசுபடுத்தாத வழிகளை பயன்படுத்த வேண்டும். இதனால் இயற்கை பாதுகாப்புடன் மனித தேவையை பூர்த்தியாகும். மனிதனும் இயற்கையும் சீரான இடைவெளியில் ஒரு இரயில் தண்டவாளம் போல இணைந்து இருப்பது தான் சமூகத்திற்கும் நமக்கும் நல்லது. இயற்கையை பாதுகாத்து நாட்டை பாதுகாப்பதுடன் நாமும் இனிமையாக வாழ்வோம்.
